

The Non-Negotiables

Must-follow guidelines for campus HOSTS program management.

- No mentor will be assigned to or have contact with a student until the liaison receives Flour Bluff ISD notice that the mentor has been **processed, approved** and has **cleared the district-required background check** and the following campus steps are complete:
 1. The HOSTS Liaison must first get the student's approval to be in the program before requesting parental permission.
 2. Next the HOSTS Liaison must receive written parent/guardian permission before placing the student with a mentor.
 3. Every mentor must attend a campus orientation including review and acceptance of district guidelines before meeting their student. Mentors should be told, in general terms, why their student was referred to the program.
 4. The HOSTS student's classroom teacher should receive "So You Have a HOSTS Kid in Your Class" document before the first mentor/student meeting. Teachers should be frequently reminded of their role in the HOSTS program and to be sensitive to both mentor and student when discussing the student's progress.
- Mentors cannot see their students off campus.
- No social media contact with mentee - ie. facebook, text, tweets, phone numbers, ect.
- Liaisons must not give mentors parent/guardian email, phone numbers, address and vice versa.
