

Price a Medication using express-scripts.com

Whether you pick up your prescriptions at a pharmacy or have them delivered, you can compare prices for all your brand name, generic, formulary¹ and non-formulary medicines online at express-scripts.com. You can quickly and easily price a medication before filling a prescription. Having this information will help you find the best value.

Pricing a medication is easy!

Log in at express-scripts.com or the mobile app using your user name and password. First-time visitors need to register - have your member ID number or social security number (SSN) handy.

	Prescription	s You Can Order Today	Find a prescription not listed below

Once logged in, select Price a Medication from the menu under Prescriptions online or from the main app menu.

On the next screens you will be asked to enter the name of the drug you want to price, the strength, and the dosage. (For example: Tapazole[®], 5 mg, taken once per day.)

Based on this information, the system will generate pricing information for home delivery and retail, and for the brandname and generic drug, if available. It also indicates whether this drug is covered in your plan. You can use this to compare the costs and then "Add" a drug to the list to track your out-of-pocket expenses, depending on your plan.

You can also view drug information, other drug options, and select other retail pharmacies.
