Those offered the vaccine are ones who are currently 65 and older, have health conditions, and those who are health care workers. Dawn stated we will continue masking, sanitizing, and self-monitoring.
- **Wellness Plan** – Gina Valdez and Brittany Buchanan, Nutrition Department – Gina Spoke about having smart snacks in the cafeteria for students which aim to improve student health and well-being, increase consumption of healthful foods during the school day, and create an environment that reinforces the development of healthy eating habits. Gina stated that all nutrition employees have their food handlers permit and all cafeteria managers have their certifications. The Nutrition Department is bagging everything this year as well as having a no share table. The Nutrition Department will continue its commitment to promote wellness in the district.

**Other Discussion:** Dr. Barganski spoke about implementing Character Traits Instruction by the 2021 – 2022 school year. The State Board of Education shall integrate positive character traits into the essential knowledge and skills adopted for kindergarten through grade 12, as appropriate. The State Board of Education must include the following positive character traits: courage, trustworthiness – including honesty, reliability, punctuality, and loyalty; integrity, respect and courtesy, responsibility – including accountability, diligence, perseverance, and self-control; fairness – including justice and freedom from prejudice; caring – including kindness, empathy, compassion, consideration, patience, generosity, and charity; good citizenship – including patriotism, concern for the common good and the community, and respect for authority and the law; school pride, and gratitude. Currently the Elementary and Intermediate campuses have implemented the Positivity Project which teaches these character traits. School Connect is at the High School. The district is currently looking into curriculum for other campuses and new curriculum will be shared with SHAC for review. Dr. Barganski spoke about COVID cases and stated the district is watching throughout the district and acknowledged the High School had a few more cases than other campuses.
