CAREER & TECHNICAL EDUCATION

August 2025 Edition

FBISD
CTE

1 Welcome Back

The Career & Technical Education Department is excited to have students back as we kickoff another great year of learning, innovation, and growth. Whether students are exploring a new pathway or continuing their journey, we are proud to support our students every step of the way.

Students in our Health Science courses work hard, & earn National Certifications in their respective fields.

Career and Technical Education courses offer hands-on experiences, real-world skills, and opportunities to prepare students for college, careers, and beyond. We are thrilled to continue growing our Programs of Study, including Health Science, Cosmetology, Construction, Aviation, Law & Public Service, Programming & Software Development, Automotive & Collision Repair, Communications, Manufacturing, and Business Management—each offering real-world experiences and valuable skills to prepare our students for life after graduation. This year, we are also proud to launch Maritime, a growing industry in the Coastal Bend. This addition will open even more doors for students to explore in-demand industries and discover future career paths.

We are here to help students discover their passions, develop their talents, and take steps toward their future. From certificates and internships to industry-based projects and competitions, the opportunities are endless for students to grow, lead, and succeed. We are eager to make this a year of innovation and opportunity.

We are excited to watch our students rise to new challenges and reach new milestones this school year.

Here's to a great year ahead!!

2 CTE & P-TECH Advisory Committee Meetings

The CTE & P-TECH Advisory Committees play a vital role in shaping the future of career and technical education by bridging industry expertise with classroom learning. These committees provide valuable guidance to ensure students are equipped with the skills and knowledge needed to thrive in today's workforce. Together, we build meaningful pathways for student success and community growth.

3 CTE Partners

We extend our sincere thanks to all our incredible Career and Technical Education (CTE) partners for their continued support, collaboration, and commitment to student success. Whether through mentorships, classroom presentations, facility tours, donations, job shadowing opportunities, or curriculum input—our partners play a vital role in helping students gain real-world experience and explore meaningful career opportunities. Our CTE partners work with FBISD CTE faculty and staff to help expose and empower the next generation of skilled professionals and make a lasting impact on the community. We truly appreciate the dedication of our partners as they assist with preparing our students for success in both college and career. Thank you to all our partners for being a part of our CTE mission!
